

RED SEA DIVING SAFARI Ecolodge Wadi Lahami

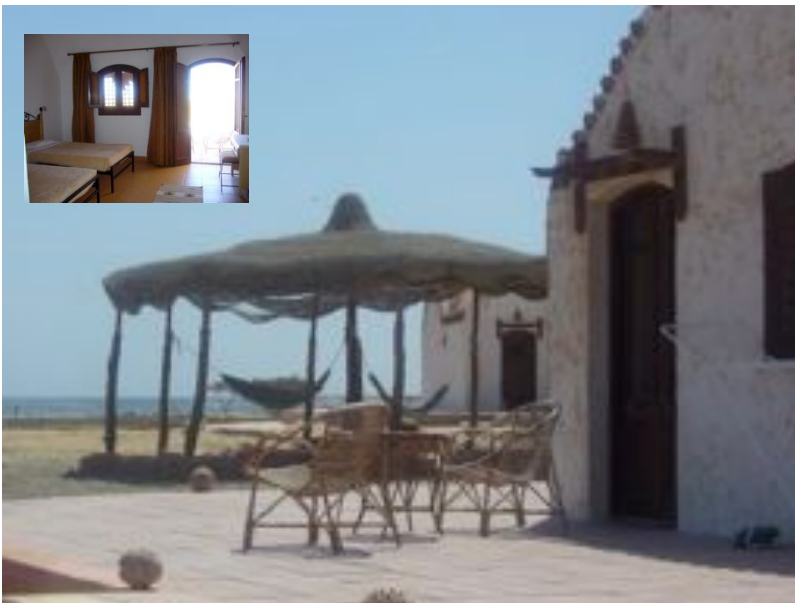

Ecolodge Shagra Village
Ecolodge Nakari Village
Ecolodge Wadi Lahami Village
Pioneer Divers

Ecolodge Wadi Lahami Village is settled in a sheltered bay just above Ras Banas, directly opposite the multitude reefs, collectively known as the Fury Shoals.

It's the most southern Ecolodge of Red Sea Diving Safari.

This remote bay is located 393-km from Hurghada Airport, and 180-km from Marsa Alam Airport. The Village consists of 30 tents (Cotton Houses) all with electricity, comfortable beds and close to bathrooms.

And 16 en-suite Chalets

This is a great opportunity to experience the Deep South of the Red Sea whilst having the freedom and flexibility of being land based. This place is for adventurous Divers, Snorkelers, Kites and Birdies seeking the opportunity to discover pristine landscape, reefs, whilst living in a no frills, "close to nature" expedition environment.

For the Divers and Snorkelers, we offer the wrecks, drop-offs and 'habilis' (local word for unborn reefs) of the Fury Shoals and the local inshore reefs of Wadi Lahami.

These reefs have a very rich marine life. Pelagic fishes, such as jacks, tuna, sharks and rays are cruising visitors. The hard corals, which make up the Reef topography of the Fury Shoals, are believed to some of

the best examples in the world. This remote area still offers a sense of exploration and discovery.

Throughout the entire Red Sea, there is no comparable area blessed with the most extensive and remarkable

coral landscape. All dives are with specially designed fast boats 'RIB's (Ridged inflatable boats.)

Off-shore diving (Classic program)

Breakfast is served at 06:00. (summer) 06: 45 (winter) We prepare for departure after breakfast and then the adventure begins into the heart of the Fury Shoals for two dives. Coffee, tea, cake are served on the RIB between dives. We return to the Ecolodge around 12:00 for lunch.

The two dives in the morning are guided . The 3rd dive is local and designed for buddy pairs to explore our wonderful house-reefs (which comprises of many local in-shore reefs).

The night dive takes place on the fringing reef closest to the Ecolodge. Guided night dives are available at extra cost, payable on site. A detailed briefing of the dive sites will be given before all dives. Red Sea Diving Safari does not allow decompression diving and the maximum depth allowed is 40 m.

In-shore diving (Leisure program.)

Ecolodge Wadi Lahami Village now offers a new inshore diving package to be booked on-site with 3 daily dives, plus a night dive on our wonderful inshore reefs of Wadi Lahami that are within 3 to 5 minutes range of the Ecolodge. Routes have been designed lasting 60 min, offering the best examples of hard and soft corals. For the In-Shore program breakfast is between 06:30 and 08:30. After breakfast, briefing for the first dive with maps etc. The journey is only a few minutes to all the sites. The dives are made with the RIBs following the divers, so you will be collected wherever you wish to surface. After each dive, you will return to the Ecolodge for refreshments or meals.

The package is attractively priced and aimed at divers that like diving at their leisure, starting with the first dive at 08.30 Packages can be upgraded on site.

Living the Passion

“New 2007 Program”

30 meter vessel available for over-night excursions in combination with all Ecolodges. We depart from Wadi Lahami and make a dive on the way to Sataya (dolphin reef) On arrival we swim with the dolphins and join the M/Y Eagle Ray for lunch. The vessel we have moored there acts as floating restaurant and accommodation. From here we spend two days, one night diving and snorkelling the outer fringes of the Fury Shoals

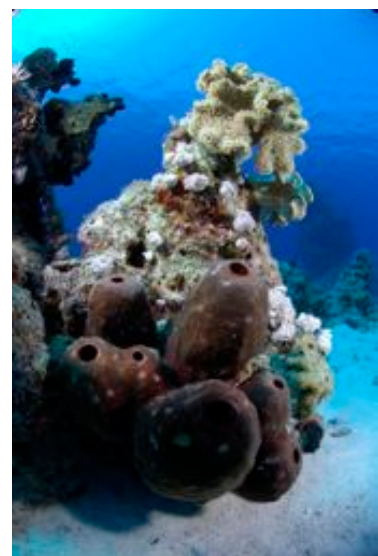

with twin engine 7.5 meter RIBS (This is not a boat Safari) We are using the vessel as a dive and snorkel platform only.

We are also offering this program as a complete 7 day package. Diving will follow the same principle as our ‘Classic program’ of 3 dives + night dive per/day , discovering new, and unknown dive sites with our fast sea-worthy RIBs. Each day returning to your “floating air-condition ensuite chalets,” and the availability to interact with dolphins as you, or ‘they’ wish.

Bird Watching.

Wadi Lahami Village is also situated next to a protected mangrove area (Hamata) which boasts one of the best areas for birding ("bird watching") along the Red Sea coast.

Many waders and shore birds roost and nest close by the mangrove swamps. These include the white heron, night heron, striated heron and sometimes the spoonbill. The sooty falcon is a possible visitor in the summer, and of course not to forget the magnificent ospreys which are nesting in the winter .

In summer, the white-eyed gull can easily be seen, as well as the white-cheeked gull and the Caspian tern. The gull is quite special as its breeding range is restricted to the Red Sea. In fall and spring thousands of small birds like swallows, stone-chats, pipits, wagtails and kingfisher can be seen. Also we have a special guest "The Goliath Heron" living amongst the nearby mangroves.

Kite and Wind Surfing

Wadi Lahami also has a well equipped Kite and Wind Surf-Station.

Due to part of our bay being of soft sand, it is the perfect environment for beginners.

For experienced Kites, there is the freedom to kite or surf away from the bay, where during the season you will find some very challenging waves. Various courses, storage and rescue packages available

Diving in Ecolodge Wadi Lahami Village suits experienced divers. We require a minimum of 20 logged dives, (for our Off-shore and Inshore dives). It is also obligatory to use a diving computer (if required, a rental computer is available for € 10 per day).

Scuba Review and Dive courses are possible, from Open water Diver to Dive Master. Nitrox courses on request (advance booking required).

The dive area has fresh water for rinsing regulators, cameras, computers etc. and drying rails for hanging equipment. There

is also a bank of 220 V power points for battery recharging. It is recommended that guests bring fast chargers (6 hours max.) All dive cylinders are 12 L Aluminium Din / Int .
